ANNUAL REPORT  
OF THE  
SCHOOL COMMITTEE  
OF THE  
TOWN OF MERRIMACK,  
FOR THE  
*SCHOOL YEAR 1885-86.*

## REPORT.

---

The following is the report of your committee :—

Your committee does not feel that the large sum of school money expended during the past year has been generally used in the best manner, but allow me to congratulate you upon this being the last, at least for five years, of the pernicious district system.

The management of the schools will hereafter be by a Board of Education, and we may reasonably expect better schools in the future. Much will depend however in your selection of suitable persons for this board, and in your hearty co-operation with the same.

All petty feuds and troubles caused by the district system should be forgotten, and all work together for the advancement of the cause of education and the benefit of our scholars.

The distribution of the school money has been very unequal, one school having kept 37 weeks, another only 17.5 weeks, under the new system all schools will be equal in weeks at least.

In District No. 8 the school was broken up by the illness of the teacher during the winter term, twenty-seven dollars and eleven cents remaining unexpended.

In some districts the attendance has been poor, due in some few cases to sickness and in too many, I fear, to a lack of interest in the parents, they seeming to forget the necessity of an education for their children, but please remember this is doing an injury to your offsprings that

you are morally responsible for. See to it that your children attend school every day that is possible, and they will when older thank you for it.

It is my duty to again remind you of the improper seats found in all of the school buildings excepting at Reed's Ferry, and of the almost entire absence of means of ventilation; also the arrangement of the windows in regard to the light; many pupils may trace trouble with the eyes from this evil found in many school rooms. You will please remember that these three faults mentioned are an injury to your children physically, and it is in your power to remedy them and your bounden duty so to do.

Many school rooms need more blackboard surface, especially in district No. 5, and in this room the light is very bad. Both may be remedied at a small expense.

More seats are needed in Reed's Ferry school room, the seating capacity at present is for 30 pupils, while there were at one time this winter term 33 pupils, the committee borrowing seats to accommodate the surplus.

In compliance with a recent state law, Hutchinson's Laws of Health were introduced during the summer term.

Patterson's elements of grammar were at the same time substituted for Green's grammar. Both books have given good satisfaction.

Your committee has endeavored to enforce the use of Colburn's mental arithmetic, but with indifferent result, not indifferent as regards the use of the book, but the number of pupils studying the same.

#### SCHOOL MONEY.

The regular school revenue and the Gage fund for the year has been as follows:—

Dist.	Town apport.	Gage Fund.	Literary Fund.	Total.
1	\$91 12	\$67 12	\$10 23	\$168 47
2	81 42	37 76	10 23	129 41
3	289 78	146 82	10 23	446 83
4	146 78	58 73	10 23	215 74
5	91 36	71 32	10 23	172 91
6	72 59	29 37	10 23	112 19
7	118 13	134 24	10 23	262 60
8	79 52	29 36	10 23	119 11
9	113 34	96 48	10 23	220 05
10	36 76		5 13	41 89
11	117 42	20 97	10 23	148 62
12	46 28	33 57	5 13	84 98
	<hr/> \$1,284 50	<hr/> \$725 74	<hr/> \$112 96	<hr/> \$2,122 20

Each scholar receiving from the Gage fund four dollars, nineteen cents and five mills (\$4.195), the basis of apportionment being on the children in town the first day of April, between the ages of five and fifteen, as per census of selectmen.

Extra school money not included in this table was raised in district No. 12, the sum being \$20.60; this district also received from Amherst \$27.75. No. 6, also not included, received probably about \$20, no record of the exact sum having been received. District No. 10, not included in the table, received from Bedford regular money \$36.85, extra \$30, making a total of school money from all sources, \$2,257.40. The following sums were raised by the several districts for repairs: No. 1, \$15; No. 2, \$25; No. 4, for insurance, \$18; No. 6, \$30.64; total, \$88.64. Grand total for schooling and repairs, \$2,346.04.

In district No. 2, upon examination of the school building it was pronounced unsafe for school purposes and it was decided not to expend the money. At the

coming annual town school meeting you will be asked to raise money to build a new school house in this district, and for much needed repairs in other school buildings.

Census of school children in town April 1, 1885, between the ages five and fifteen, as furnished by the selectmen:—

DISTRICT.	BOYS.	GIRLS.	TOTAL.
1	7	9	16
2	6	3	9
3	20	15	35
4	5	9	14
5	8	9	17
6	3	4	7
7	18	14	32
8	5	2	7
9	10	13	23
10	none	none	none
11	1	5	6
12	5	3	8
	88	86	174

There are only two reported of the above, as not attending school during the school year. The number of official visits made the schools during the year, 52.

The following tables are completed to February 26, 1886. The school in district No. 7 being still in session, the report for the same cannot now be made complete.

A roll of honor is annexed to this report, under a protest, your committee believing it to be unfair to those pupils who if not detained at home by reason of sickness would have been just as worthy of special mention.

Respectfully submitted,

WARREN W. PILLSBURY,

MERRIMACK, N. H., March 1, 1886.

*Supt. School Com.*
